

SUDHA & SUNNIVA

Tech rider

Sudha:

- Ukulele needs a jack output.
- Needs a cable and a channel with phantom power for vocal mic + stand.
- Medicine drum that needs mic'ing up. Usually something like an sm57 on a stand from the back works really well. Could possibly use that same mic for Shruti box.

Sunniva:

- 1 armless chair with cushion on it
- 1 tele/jack cable for accordion + DI box (I have internal instrument mics)
- 1 tele/jack cable for the ukulele + DI box (I have internal instrument mics)
- 1 external mic, cable, plus low mic stand for the harmonium
- 1 high vocal mic stand + xlr (I'm bringing my own mic which needs phantom power)
- I will also be bringing an OP-1 synth with a stereo output which needs a DI box
